

Job Announcements:

Planning and Zoning Administrator, Grand County, Utah

The Grand County Community and Economic Development Department is now accepting applications for the position of planning and zoning administrator. The successful candidate will join an award winning team of creative and hard-working individuals who care deeply about the evolution of the Moab Area. The desirable candidate will have the abilities and experience necessary to perform a variety of professional clerical, technical, and administrative duties; oversee the day-to-day administration of the zoning and development process; manage zoning and development plan review, support field inspections and enforcement efforts; coordinate, prepare, process and present zoning appeals to the Hearing Officer; and assist in planning projects and activities.

Qualified candidates should examine the official job posting and submit an application at <http://grandcountyutah.net/jobs.aspx>. Pre-application questions may be submitted to Zacharia Levine, Grand County Community and Economic Development Director, via email at zlevine@grandcountyutah.net. For more information about the Grand County Community and Economic Development Department, see the department's website at <http://grandcountyutah.net/149/Community-Development-Planning-Engineeri>.

Technical Inspector and UMTRA Liaison, Grand County, Utah

Grand County seeks a technical inspector and community liaison to inspect facilities in Grand County including oil and gas industry and the US-DOE Moab Uranium Mill Tailings Remedial Action. The successful candidate will become an employee of Grand County government in a position partially funded by a US-DOE grant. The desirable candidate will have familiarity with chemical process equipment, technical projects, regulatory matters, and environmental monitoring, and be able to evaluate and effectively explain to elected officials and the public the implications of relevant reports and documents. The desirable candidate will be able to work a flexible, self-directed part-time schedule (20-25 hours per week), be comfortable with public presentations, drive to inspection sites up to 100 miles from Moab 2-3 times each month, and be prepared to travel to remote desert, canyon country and high mesa environments on day trips.

Qualified candidates should examine the official job posting and submit an application at <http://grandcountyutah.net/jobs.aspx>. Pre-application questions may be submitted to Zacharia Levine, Grand County Community and Economic Development Director, via email at zlevine@grandcountyutah.net. For more information about Moab UMTRA, see the US-DOE website at <https://www.gjem.energy.gov/moab/index.htm>.
